JOHN S. WOLNIK

In Presenting to You

Our NEW 1937 CATALOG, we have made every effort to improve our plants, shrubs, trees, seeds, etc., so that we may be able to obtain the highest quality northern-grown stock at **REMARKABLY LOW PRICES**. **COMPARE** our prices with other reliable nursery firms, and still, no matter what you pay, you will receive no **FINER** plants than ours. You may have been **WARNED** by **OTHERS** to **BEWARE** of **CHEAP** plants. They may tell you that the cheap plants are expensive in the long run. But this does not apply to us. **OUR PLANTS** are **GOOD PLANTS** and not **CHEAP PLANTS**, **EXCEPT LOW** in **PRICE**. There are a lot of dependable nurseries throughout the country, who can furnish you with mighty good plants, trees, seeds, etc., but **WHY PAY MORE** when stock equally as **GOOD** or **BETTER** can be purchased for less. We guarantee satisfaction. Send us a trial order and you will be convinced.

PLANTS and PLANTING

SOIL PREPARATION: The land should be thoroughly prepared for planting Strawberries. Lands that have been well prepared in growing of other cultivated crops may be fitted for immediate use, but if the land has lain idle for several years or is in sod, it should be devoted to cultivated crops for one or two seasons to rid the soil of white grubs and to eradicate grass and weeds.

TIME OF PLANTING: Early spring is the ideal time for setting the plants. The earlier the better after the soil can be properly prepared. The more abundant moisture of early spring favors a better stand and a vigorous growth of plants.

CARE OF PLANTS: As soon as the plants are received, they should be immediately unpacked and either planted at once or heeled in until they are needed. For this purpose, a moist well drained spot, somewhat protected from the sun and wind should be selected, cut the string off the bunch, then spread plants out in a shallow trench, with the crown even with the level of the ground. The trench is then filled in carefully to avoid covering the crowns, and the soil is well firmed so that it will come in close contact with all the roots. Should the roots be warm and dry when received, they should be dipped in water and the plants then kept in a cool place for a few hours before being heeled in. When properly heeled in, the plants may be kept in good condition for two weeks or longer if necessary while the field is being fitted for planting, although the sooner they are transplanted permanently in the field the better the results will be.

CULTIVATION AND CARE DURING THE FIRST SEASON: Frequent cultivation and hoeing to maintain a fine surface mulch are important. Cultivation should start immediately and be repeated in from ten days to two weeks, or after every rain until freezing weather occurs in fall. The field should be absolutely free from weeds at that time. Late cultivation is necessary to destroy small weeds, which otherwise will grow in the fall and start quickly in spring.

REMOVAL OF FLOWER STEMS: Soon after the plants are set in the field, flower stems are usually produced. These should be removed as they appear, preferably before the blossoms open. The production of flowers and fruit on the plant will greatly decrease the vigor of the plant. The Everbearing varieties should have blossoms removed until about the first of July, after which they are allowed to bear.

Our Motto is: "Quality and Complete Satisfaction to Every Customer."

Our plants are all state inspected and approved. A copy of inspection certificate is attached to every order. Our plants are fresh dug from new ground and tied 26 plants in a bunch. All orders are perfectly packed in damp moss. We guarantee our plants to be true to name and to arrive at their destination in good growing condition. All plants listed are perfect, or self-pollenizing. Hardy northern grown plants will show you the way to real profit from berries.

Plants Required Per Acre on Different Fruits

	Distance apart be- tween rows	Distance apart in rows	Number plants per acre
Strawberries:			
Commercial use	3½ feet	1½ feet	8,712
Garden use	2½ feet	15 inches	14,520

Giant MASTODON *Everbearer*

This is one of the best everbearers grown; there is such a great demand for this variety that there are millions of plants sold every year throughout the country. Mastodon makes an abundant growth for a fruit bed of strong, healthy

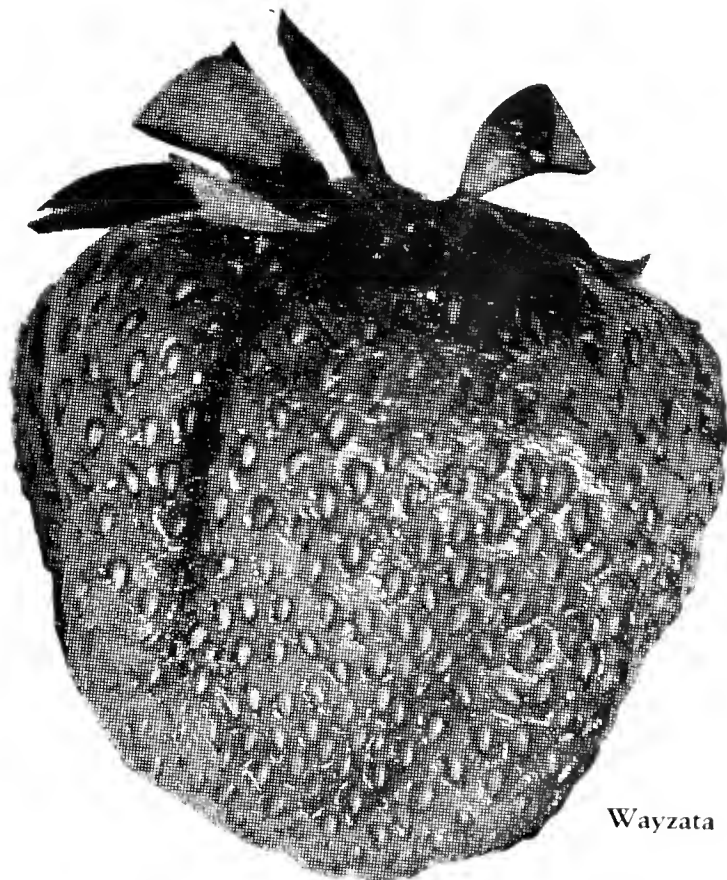

plants, which are very productive. The berries are very large, perfect in every way; for their size, sweetness, color, flavor and appearance, nothing like it has ever been known. Mastodon bears a **HEAVY CROP** of berries ninety days after planting and continues until frost. Mastodon is generally grown for big profits and is a real money maker on roadside stands and on the markets.

Just think, you can have a delicious Strawberry shortcake and all other Strawberry desserts all through the summer and fall with very little expense to you, from a small patch in your garden. Since the Mastodon has been introduced there are large profits for the growers

that grow them in large quantities for the big markets. The consumers will always pay a top price for such extra fine quality as is found in Mastodon. Our Mastodon plants this year are grown on new land, hardy, well rooted and 100 per cent healthy. We suggest that you give Mastodon a trial this spring. You will be more than satisfied. 25 for 60c; 50 for 75c; 100 for \$1.15; 250 for \$2.35; 500 for \$4.00; 1000 for \$7.95.

WAYZATA

This remarkable SUGAR SWEET everbearer will be the **LEADER** of the everbearers in the **FUTURE**. The berry is bright red clear through with no green tips. It is the best flavored berry grown, being very firm, large in size and of excellent quality. The plant being very productive, Wayzata bears three full crops in 18 months. It will start to bear 90 days after planting and **CONTINUES** to **BEAR** till **HEAVY FROST** in the **LATE FALL**. Wayzata is a poor plant maker. This bad feature gives the plant the opportunity to bear **FRUIT HEAVILY** and large. 12 for 85c; 25 for \$1.50; 50 for \$2.50; 100 for \$4.80; 250 for \$9.50.

Wayzata

10 %

Discount on all Cash Orders received during February.

5 %

Discount on all Cash Orders received during March.

An offspring of the old Progressive Everbearing Strawberry. Berries are above average in size and the flavor is similar to Progressive or Champion. The berries are firm and will stand shipping. The plants make a vigorous growth, produce runners quite freely with a type of growth similar to Senator Dunlap, making numerous small plants rather than a smaller number of large plants like the Mastodon. In considering the growth habit of Gem it would produce more and larger berries, if the plants would be grown under the hill system or the runner production limited to a very few. Try this outstanding new commercial variety this season. 25 for 60c; 50 for 75c; 100 for \$1.15; 250 for \$2.35; 500 for \$4.00; 1000 for \$7.90.

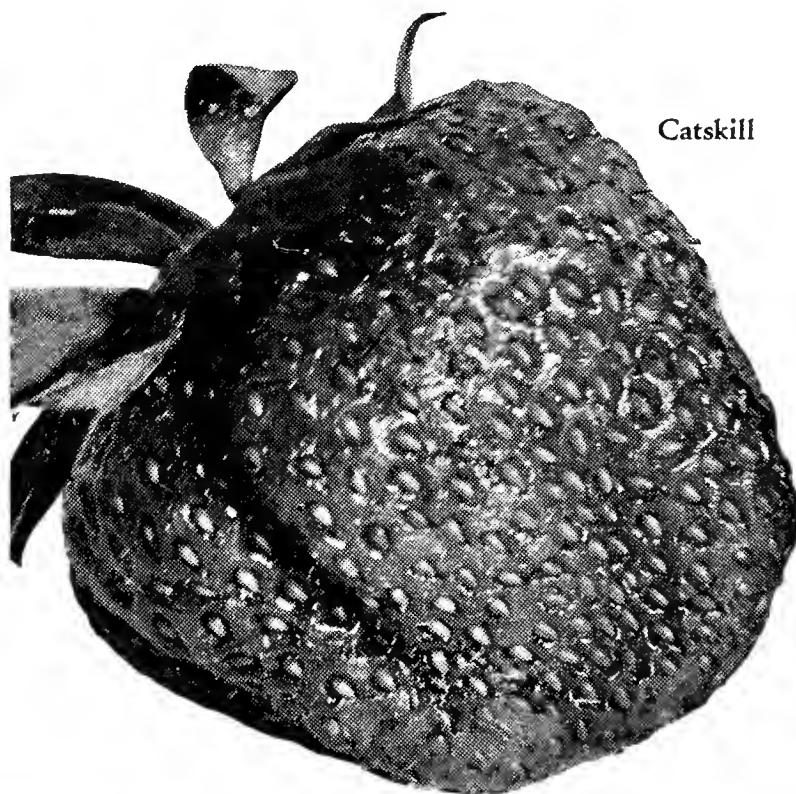

CHAMPION *Everbearer*

This variety is an old everbearer, a smaller berry than the Mastodon. They are sweet as sugar, having a fine flavor and are known to be very firm. When you plant Champion you are sure to raise a fine crop of NICE BERRIES. They start bearing ninety days after they are planted and continue all through the summer and fall, same as the Mastodon. We recommend this berry for home use and canning. The originator claims U. S. record of 5,623 quarts per acre that sold for \$2,059.20 from first year crop. They are well worth trying. 25 for 60c; 50 for 75c; 100 for \$1.15; 250 for \$2.35; 500 for \$4.00; 1000 for \$7.95.

CATSKILL (Midseason)

Largest and Most Productive

This variety is a New York Station seedling No. 4435. Before this variety was named it took a prize at the Massachusetts Horticultural Society in Boston. Catskill is a cross between Marshall and Premier. It seems that Catskill will be well worth planting as a midseason berry. Catskill is a vigorous grower and makes a large number of strong, healthy plants. The berries are very large in size, somewhat irregular, but have a brilliant red color and a bright green cap, which makes them very showy in the box. 25 for 40c; 50 for 60c; 100 for \$1.00; 250 for \$2.00; 500 for \$3.50; 1000 for \$6.75.

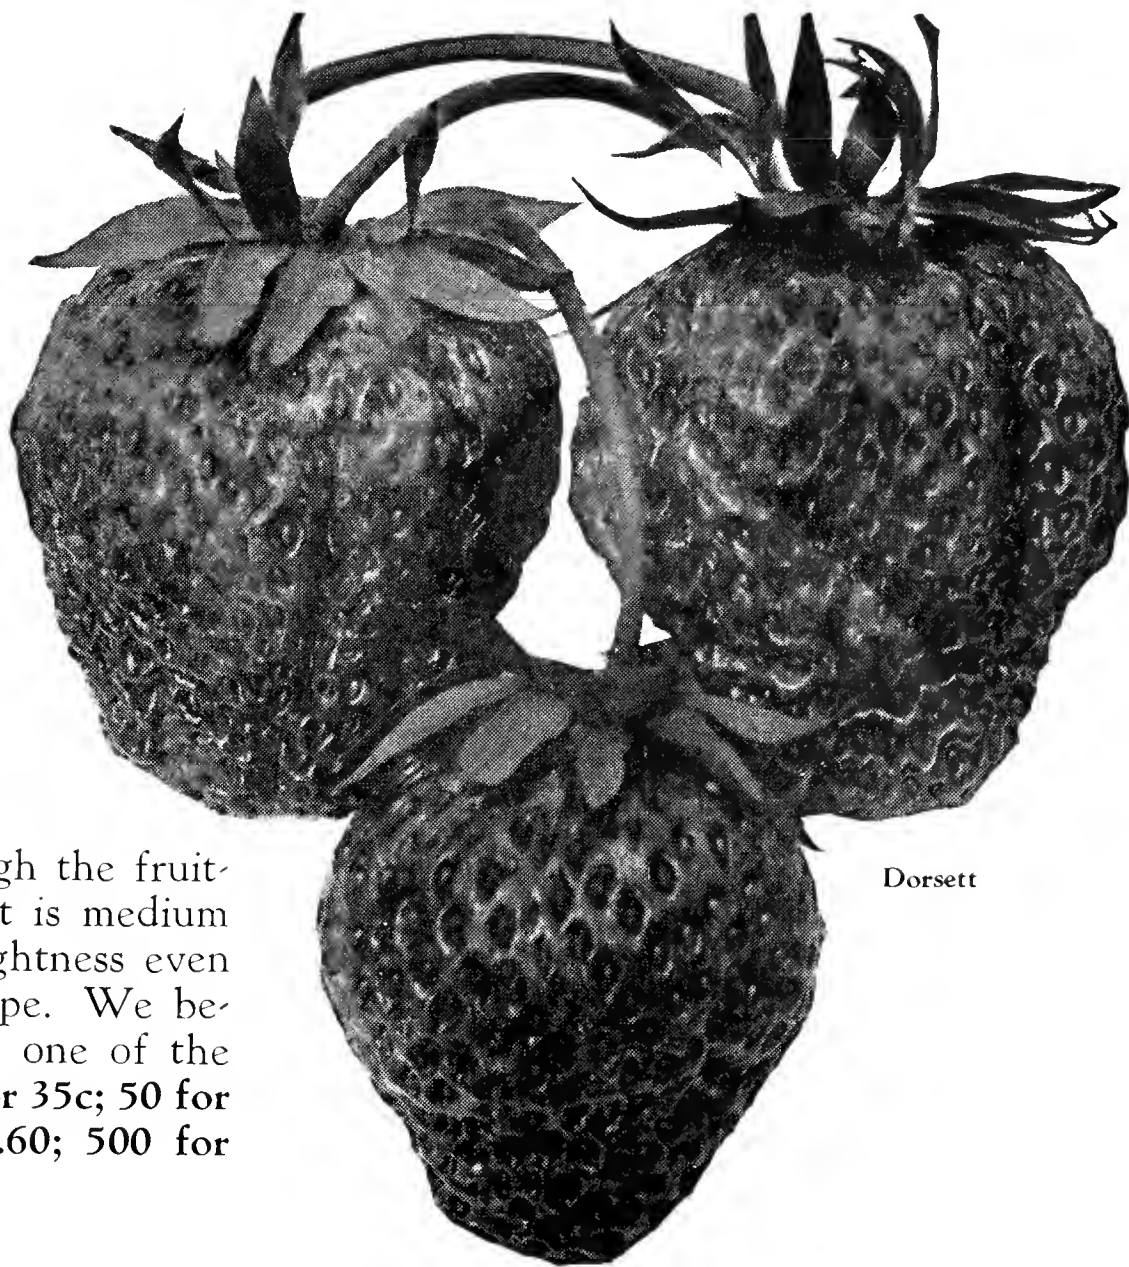

What a Treat!

Strawberry shortcake all summer and fall until snow flies. 50 to 100 plants—just a small place in your garden—will provide plenty of fruit for the average family.

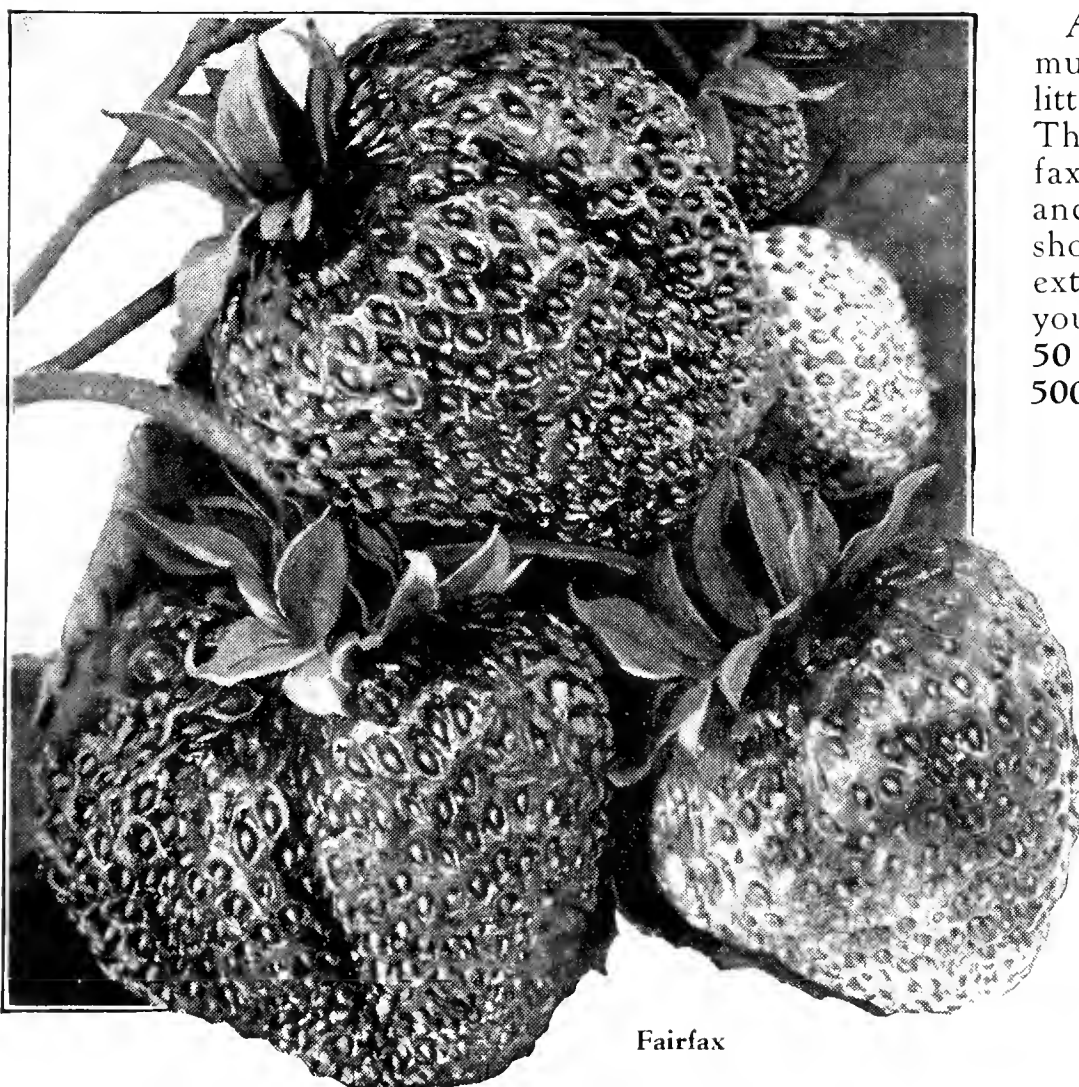

New Early DORSETT

This new variety was originated by the Department of Agriculture. It is a cross between Premier and Royal Sovereign, an old English variety. Dorsett is known to be the heaviest producer. Berries are large and firm; the firmness of this variety makes it an excellent long-distance shipper. The foliage is very dark green and holds its fine color way through the fruiting season. Color of the fruit is medium light red and it retains this lightness even after it begins to get quite ripe. We believe that this variety will be one of the leaders in the near future. 25 for 35c; 50 for 50c; 100 for 75c; 250 for \$1.60; 500 for \$2.50; 1000 for \$4.95.

Dorsett

New FAIRFAX Early

Fairfax

A sister variety to the Dorsett and much like it, except the berries are a little darker red, and slightly firmer. The berries average large in size. Fairfax, like Dorsett, is very productive and a long distance shipper. Reports show that Fairfax will do better in the extreme northern sections. We advise you to try some this year. 25 for 35c; 50 for 50c; 100 for 80c; 250 for \$1.75; 500 for \$2.75; 1000 for \$5.35.

You may deduct the amount of discount from your order, or include more stock for the amount.

Premier (Early)

The very best early berry of the older varieties. They start bearing fruit heavily before other varieties begin. The best and biggest picking is when berries are in good demand and bringing excellent prices on the market. Premier is as nearly frost proof as any other Strawberry. It is a healthy plant, being free from leaf spot and other diseases. Its deep heavy roots enable it to easily withstand dry weather, and mature a full crop of big berries when many varieties are a complete failure. The flavor cannot be beaten. For all purposes that a Strawberry is wanted, Premier is supreme; eating, preserving, canning, local and distant market. Remember our stock is from the original heavy fruiting strain, bearing our true-to-name guarantee. 25 for 35c; 50 for 50c; 100 for 75c; 250 for \$1.75; 500 for \$2.75; 1000 for \$5.25.

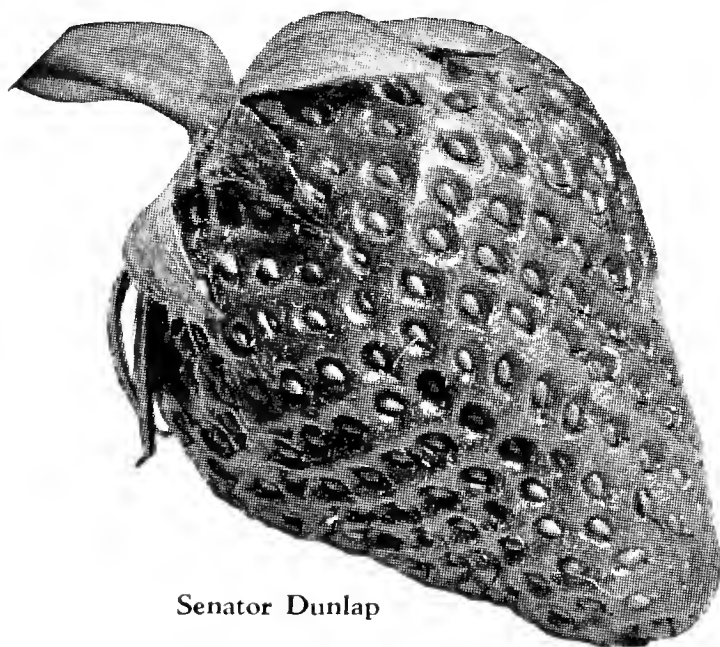

Premier

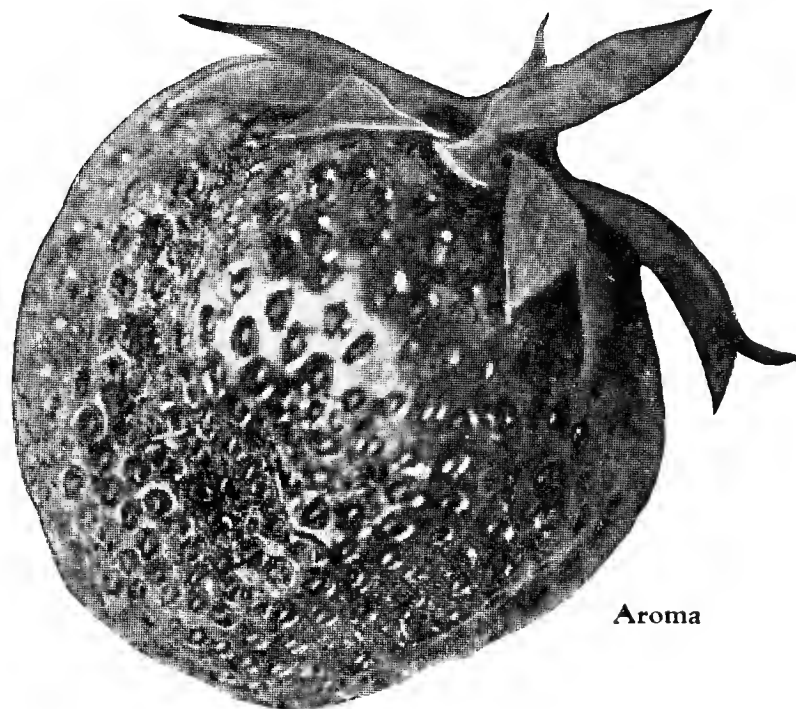

Blakemore

Blakemore (Extra Early)

This wonderful new berry was originated from a cross of the Missionary and the Premier by the United States Department of Agriculture. It was named in honor of Marcus Blakemore, President of the National Preservers Association. Plant a strong, vigorous grower and extra good plant maker. Berries are bright red and resemble the Premier and are of BETTER color. Very firm and a good shipper. Excellent canner. It has been tried out and found to be about a week earlier than Premier. Undoubtedly it will take the place of Missionary and Klondike in the South and will do well in the North anywhere Premier has been grown. 25 for 35c; 50 for 50c; 100 for 70c; 250 for \$1.50; 500 for \$2.50; 1000 for \$4.50.

Senator Dunlap

Aroma

Senator Dunlap

This is an old standard variety grown for a good many years. This variety has been widely grown in the middle and northern states. Berries are medium in size, bright red color clear through, and fair to good in quality. Excellent canner. At the present time there are more Senator Dunlap being planted than ever before, proving conclusively that it is one of the surest and most dependable all-purpose Strawberries ever offered. 25 for 35c; 50 for 50c; 100 for 70c; 250 for \$1.50; 500 for \$2.50; 1000 for \$4.50.

Less Discount

Aroma (Very Late)

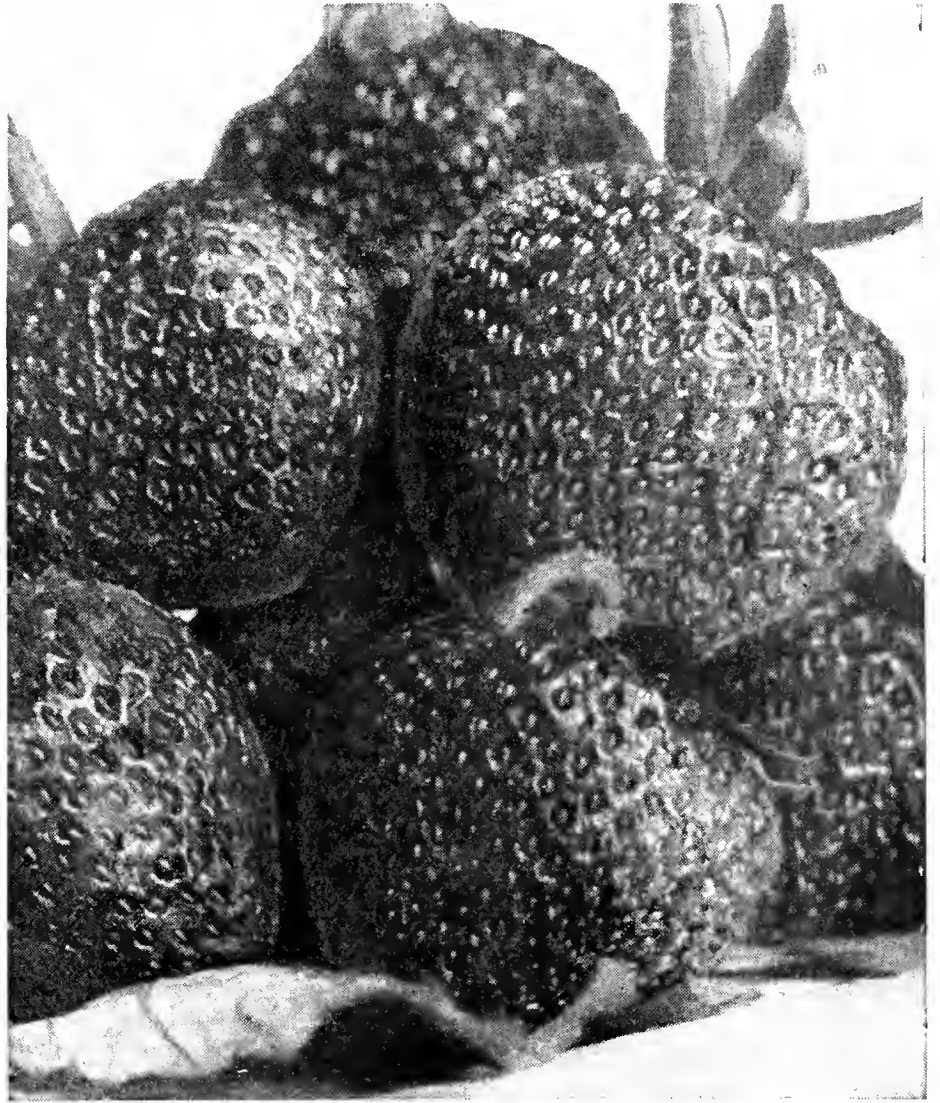

A good late variety and long considered the standard late market Strawberry. It is still grown extensively in all sections of the country, but is especially popular in the southern states where many fruit growers' associations plant Aroma exclusively, usually commanding premium prices on all markets; it is one of the greatest of long distance shippers, owing to the SUPREME quality of the berry. The berries are large, nearly round and firm texture, deep red in color and of good flavor, making it ideal for shipping. Although good yields are sometimes produced on light ground, Aroma is at its best on the heavier soils. 25 for 35c; 50 for 50c; 100 for 70c; 250 for \$1.50; 500 for \$2.50; 1000 for \$4.50.

Gibson

GIBSON (Late)

This variety has been a favorite with commercial growers throughout the country. The plants are very large and healthy. Foliage strong, upright and abundant; berries large, selling well on the market. Also mighty fine for home use. 25 for 35c; 50 for 50c; 100 for 70c; 250 for \$1.50; 500 for \$2.50; 1000 for \$4.50.

Claremont

CLAREMONT

(Early)

This new variety is a New York seedling of Marshall and Premier. It has been highly praised in the northern sections. It bears a heavy crop of extra large, smooth, bright glossy red berries, with an attractive green calyx. During the past year this variety has brought us the highest market price at our nearby markets. 25 for 45c; 50 for 65c; 100 for \$1.00; 250 for \$2.25; 500 for \$3.75; 1000 for \$7.00.

SURPLUS Strawberry Plants

Extra fine first class varieties of which we have a surplus. Freshly dug every day, but not labeled as to variety.

\$3.25
Per 1000

ASPARAGUS

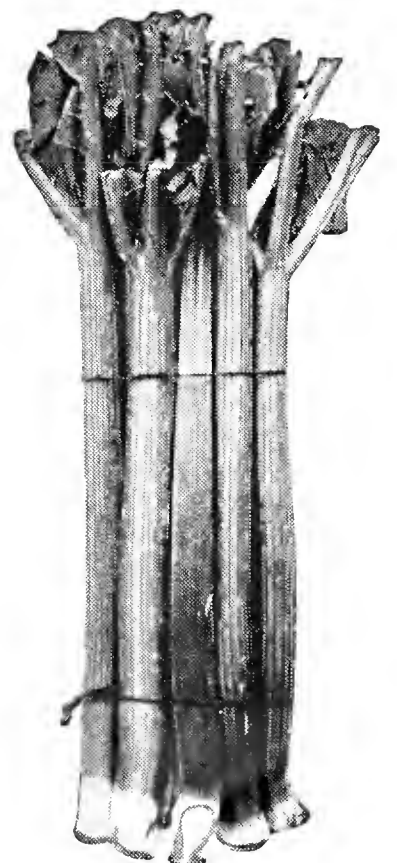

MARY WASHINGTON. This remarkable strain has long, mammoth, tender shoots with unopened tips which do not start to leaf out even when they are two feet high. Why not have the best, earliest, and most delicious vegetable from your home garden.

1-year roots, 25 for 30c; 50 for 50c; 100 for 90c; 300 for \$1.95; 500 for \$2.95; 1000 for \$5.90.

3-year roots, 25 for 40c; 100 for \$1.25; 300 for \$2.95; 500 for \$3.95; 1000 for \$7.90.

RHUBARB

Stalks extra large, very tender and mild in flavor. Early Rhubarb brings big money for spring pies and fresh table sauce. Easily grown. 3 roots for 20c; 6 roots for 35c; 12 roots for 60c; 25 roots for \$1.00.

RASPBERRIES

LATHAM *Red Raspberries*

The greatest Red Raspberry of all time. A popular favorite in all large fruit growing sections. Extra large berries, some measuring an inch in diameter. Attractive dark red color, quality of the best. Bears a tremendous crop of fruit. Brings highest prices on any market. We have no hesitation in giving Latham our unqualified recommendation as the best all around Red Raspberry.

1-year, No. 2—25 for 60c; 50 for 90c; 100 for \$1.45; 250 for \$3.20; 500 for \$5.90; 1000 for \$10.50.

1-year, No. 1 Bearing Size, Extra Large Roots—25 for 75c; 50 for \$1.25; 100 for \$1.95; 250 for \$4.25; 500 for \$7.50; 1000 for \$13.95.

2-year Bearing Age—12 for 65c; 25 for \$1.15; 50 for \$2.00; 100 for \$3.25; 250 for \$6.95.

CUMBERLAND *Black Raspberries*

This is the most profitable and popular blackcap because it does well in any soil and produces an abundant crop year after year. It is the largest Black Raspberry known. Its immense size, firmness and great productiveness entitle this Black Raspberry to be considered first. A strong grower, thoroughly outstanding; stout, stocky canes and perfectly hardy. It is the most profitable Black Raspberry grown, either for home or market use.

1-year, No. 1, Fine Roots—25 for 75c; 50 for \$1.00; 100 for \$1.65; 250 for \$3.75; 500 for \$6.95; 1000 for \$13.50.

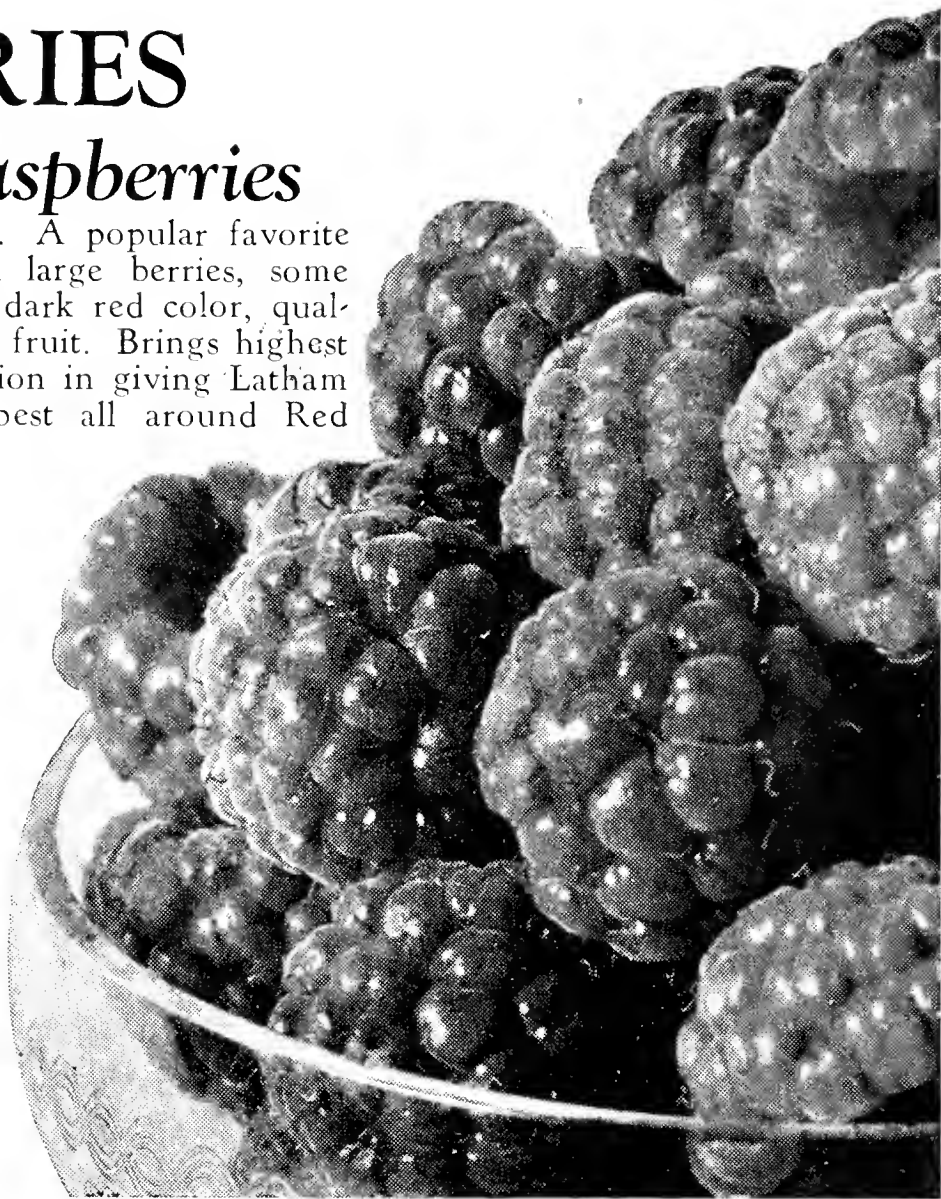

2-year Bearing Age—6 for 60c; 12 for \$1.00; 25 for \$1.75; 50 for \$2.95; 100 for \$4.95.

ST. REGIS *Everbearer*

One of the most valuable of all the introductions in the line of Red Raspberries. Will produce berries in the fall of the first year, a full crop the following spring, and again in the fall. St. Regis resembles Chief in quality, flavor and appearance.

1-year-old plants:
25 for 75c; 50 for \$1.25; 100 for \$2.00; 250 for \$4.75; 500 for \$8.85.

2-yr. Bearing Age:
12 for 60c; 25 for \$1.15; 50 for \$2.00; 100 for \$3.25; 250 for \$6.95.

Latham

NEWBURGH The new superior Red Raspberry. This variety has been introduced recently by the New York Experiment Station, and all the information that we can give is that the Newburgh will be the leading commercial Red Raspberry. Fruit very large, firm, and holds its size. Plant hardy and very productive.

1-year, No. 2, Fine Roots—25 for 90c; 50 for \$1.40; 100 for \$2.35; 250 for \$5.25; 500 for \$9.50; 1000 for \$17.95.

1-year, No. 1, Bearing Size—12 for 65c; 25 for \$1.15; 50 for \$1.80; 100 for \$2.75; 250 for \$6.50; 500 for \$12.00; 1000 for \$22.95.

2-year Bearing Age—6 for 65c; 12 for \$1.00; 25 for \$1.75; 50 for \$3.00; 100 for \$5.25.

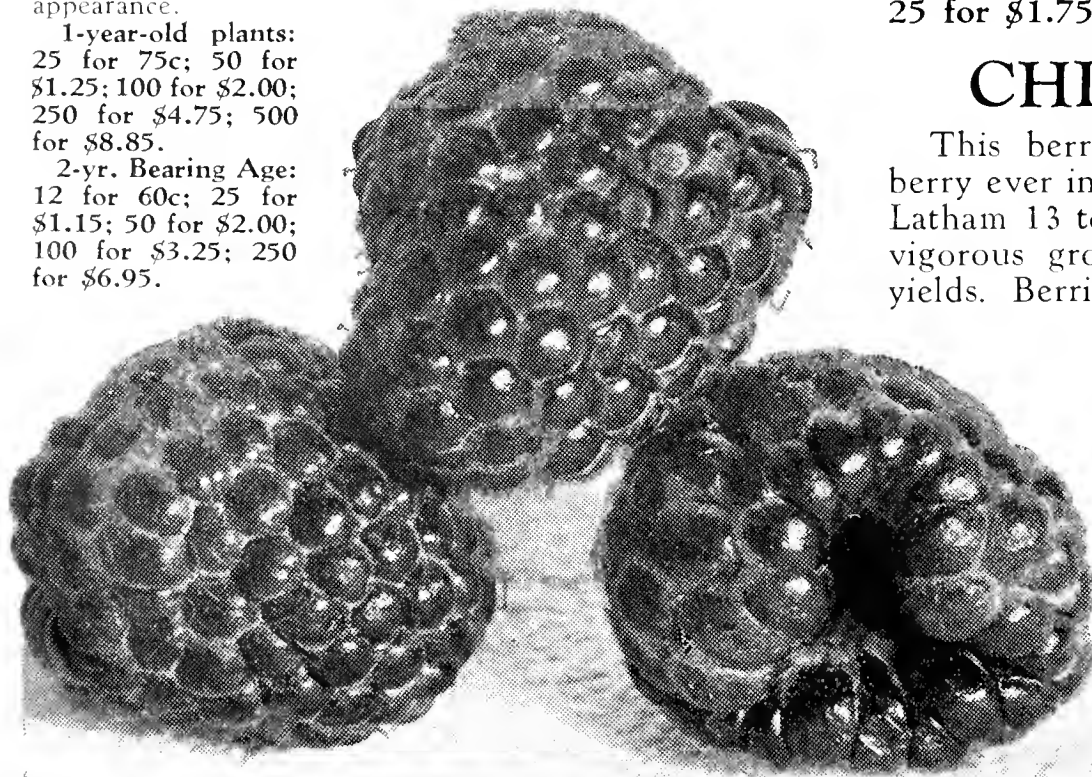

CHIEF *Red Raspberry*

This berry is the most valuable Red Raspberry ever introduced. New Chief has out-yielded Latham 13 to 50 per cent. Its superior hardiness, vigorous growth and disease resistance increase yields. Berries are extra large and firm, beautiful dark red color, and of the finest quality.

1-year, No. 2—25 for 60c; 50 for 90c; 100 for \$1.45; 250 for \$3.20; 500 for \$5.90; 1000 for \$10.50.

1-year, No. 1 Bearing Size, Extra Large Roots—25 for 75c; 50 for \$1.25; 100 for \$1.95; 250 for \$4.25; 500 for \$7.50; 1000 for \$13.95.

2-year Bearing Age—12 for 65c; 25 for \$1.15; 50 for \$2.00; 100 for \$3.25; 250 for \$6.95.

Cumberland Black Raspberries

ELDORADO *Blackberry*

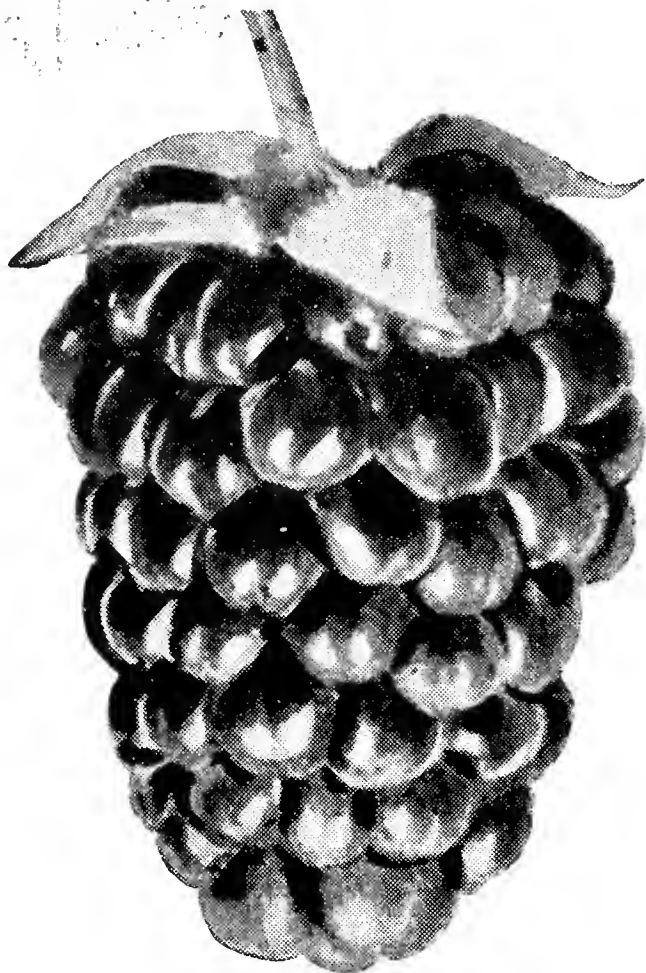

Very hardy, never winter-kills; the best commercial variety. Always free from disease; immune from orange rust. Berries are of good size, color, flavor and quality. A wonderful shipper. Fruits over a long season and insures a big profit.

1-year, No. 1—25 for 65c; 50 for 95c; 100 for \$1.60; 250 for \$3.60; 500 for \$6.75; 1000 for \$13.50.

2-year bearing age—6 for 60c; 12 for \$1.00; 25 for \$1.75; 50 for \$2.95; 100 for \$4.95.

Eldorado
Blackberry

Boysenberry

New BOYSENBERRY

This sensational new berry has immense size berries, fine flavor and is very productive. Berries average 1½ to 2 inches in length. Plants are hardy, having withstood 17 degrees below zero, although it is advisable to straw mulch in extremely cold sections. Picking season is long, ranging from eight to ten weeks. The seeds are small and very few in comparison to other berries. Berries bring top prices on the market. It is known that this berry has produced as high as 13,000 pounds to the acre. Plants are limited, order at once to get your supply.

1-year plants—1 for 25c; 6 for \$1.15; 12 for \$1.95; 25 for \$3.50; 50 for \$6.50; 100 for \$11.95.

LAWTON *Blackberry*

Large, black, juicy fruit, heavy bearer, with long picking season, usually in good weather conditions the picking season is from first of August until time of frost. Good for canning and shipping, and commands a good price on the market.

1-year, No. 1—25 for 65c; 50 for \$1.00; 100 for \$1.65; 250 for \$3.65; 500 for \$6.85; 1000 for \$13.25.

2-year Bearing Age—6 for 65c; 12 for \$1.05; 25 for \$1.85; 50 for \$3.00; 100 for \$5.25.

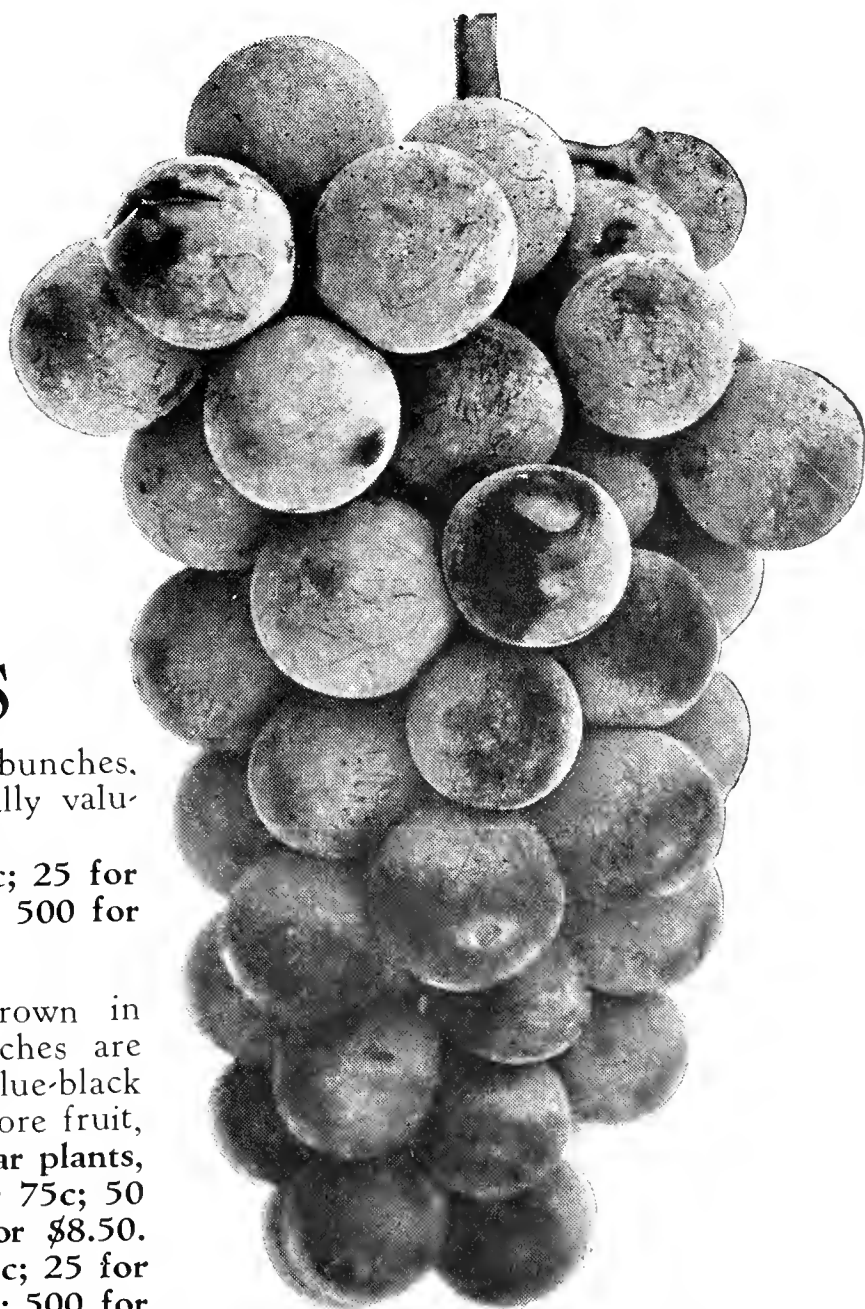

SELECTED GRAPES

NIAGARA. The best white Grape grown. Large bunches, very sweet and juicy, very productive. Exceptionally valuable for eating or marketing.

2-year, No. 1—3 for 35c; 6 for 50c; 12 for 85c; 25 for \$1.55; 50 for \$2.50; 100 for \$4.25; 250 for \$9.50; 500 for \$17.95; 1000 for \$34.85.

CONCORD. Most popular commercial Grape grown in America. Vigorous, productive and hardy, bunches are large, honey-sweet and juicy. Concord is a large blue-black variety. Will not winter-kill. Concord produces more fruit, year in and year out, than any other variety. 1-year plants, good strong roots—6 for 30c; 12 for 50c; 25 for 75c; 50 for \$1.25; 100 for \$1.95; 250 for \$4.50; 500 for \$8.50.

2-year, No. 1—3 for 35c; 6 for 50c; 12 for 85c; 25 for \$1.55; 50 for \$2.50; 100 for \$4.25; 250 for \$9.50; 500 for \$17.95; 1000 for \$34.85.

Concord Grape

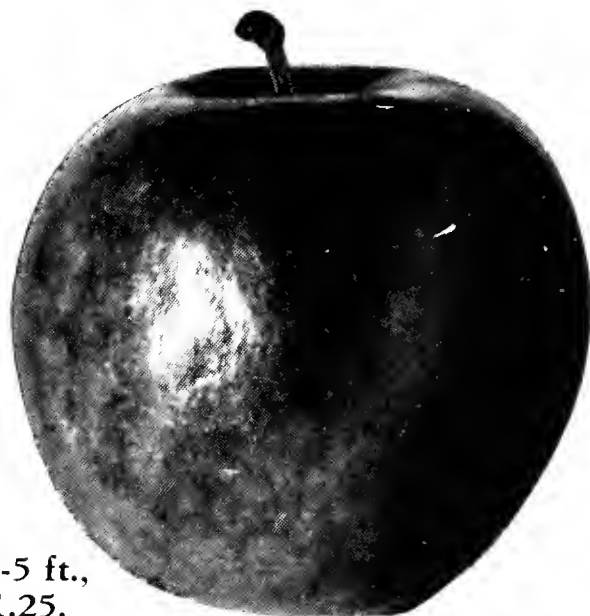

Everyone Should Plant An Orchard!

APPLE TREES

Prices: Apple Trees, 9/16 inch and up, 4-6 ft., 60c each; 3 for \$1.75. 11/16 in. and up, 5-7 ft., No. 1, 75c each; 3 for \$2.00.

RED DELICIOUS. The most popular winter Apple. Heavy annual cropper, excellent keeper and shipper. Fruit large, color a beautiful crimson-red. Flesh fine grained, crisp, tender, juicy; flavor and quality excellent. Ideal for dessert and pies.

JONATHAN. (Late fall). Young and heavy bearer. Beautiful red, highly colored and flavored fruit. Flesh white, tender, juicy and rich.

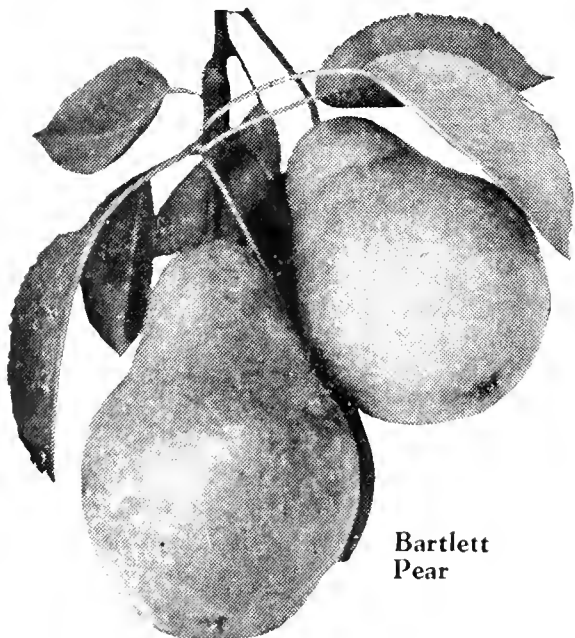

Jonathan

Red Delicious Apple

J. H. Hale Peach

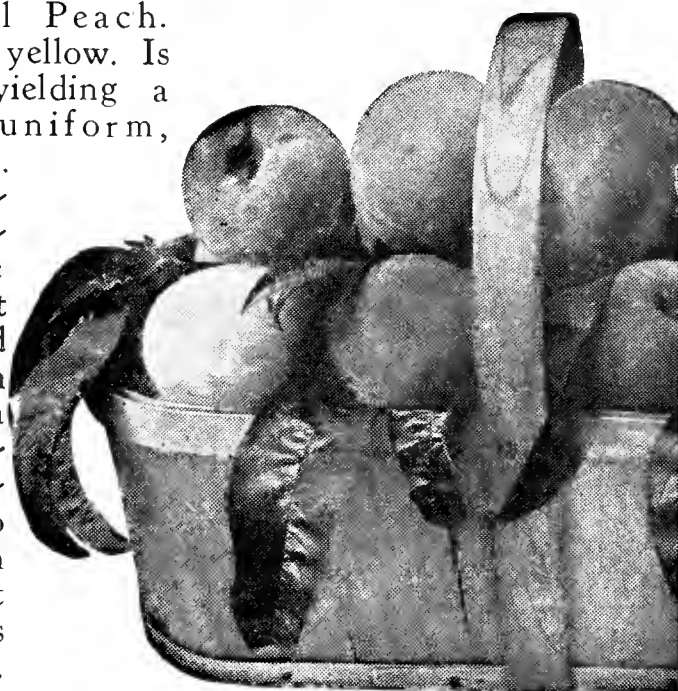

Bartlett
Pear

Peach Trees

Prices: 9/16 inch and up, 3-5 ft., No. 1, 45c each; 3 for \$1.25.

ELBERTA. The most widely planted commercial Peach. Very large golden yellow. Is very productive, yielding a large quantity of uniform, highly colored fruit.

J. H. HALE. (Midseason). Yellow free-stone. An extra-large fancy Peach that should be included in every planting. In a class by itself as a fancy table and market variety. It averages one-third to one-half larger than Elberta, ripens about 5 days earlier and is superior in flavor. Commands premium prices on all markets.

Elberta Peach

Pear Trees

Prices: 9/16 inch and up, 4-6 ft., 60c each; 3 for \$1.75. 11/16 inch and up, 5-7 ft., No. 1, 75c each; 3 for \$2.00

BARTLETT. The most popular summer Pear. A very heavy producer of large, golden yellow fruit with red cheek. One of the finest dessert and eating Pears.

CLAPP'S FAVORITE. A large, pale yellow Pear with red cheek. Tree hardy and vigorous, and does well everywhere. Fruit fine grained, sweet, and highly flavored. Ripens in early August. A fine grower and extremely productive.

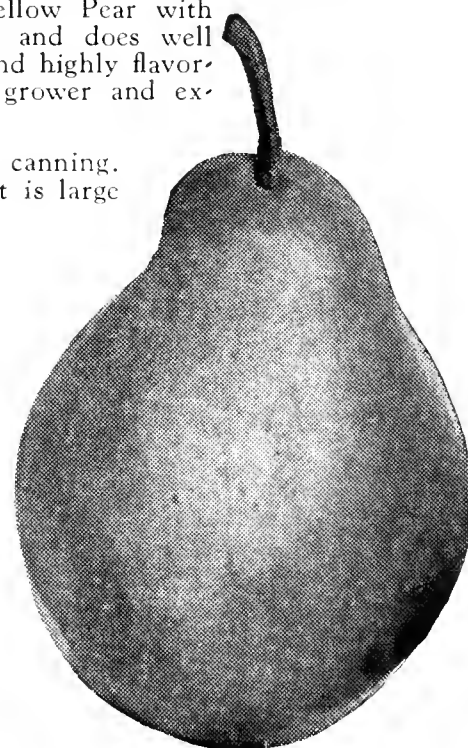

KIEFFER. Famous for long keeping and for canning. Perfectly hardy and a heavy cropper. Fruit is large and of good quality.

Plum Trees

Prices: 9/16 inch and up, 2-year-old, 4-6 ft., No. 1, 65c each; 3 for \$1.90.

BURBANK. A beautiful orange-yellow Plum dotted with red. Flesh meaty, yellow excellent texture and flavor. Retains shape and color after canning, and is also a fine market variety.

GERMAN PRUNE. Large, dark purple and sweet. One of the best for commercial planting; fine for drying and canning. Plant a few trees of this variety and you will not go wrong. Ripens in September.

Clapp's Favorite

Cherry Trees

SWEET CHERRIES

Prices: 9/16 inch and up, 4-6 ft., No. 1, 60c each; 3 for \$1.75.

BING. A fine new variety that produces an abundance of extra large, dark brown nearly black Cherries of exquisite flavor and appearance. Flesh solid, rich, and sweet. Tree hardy and vigorous. Ripens late June.

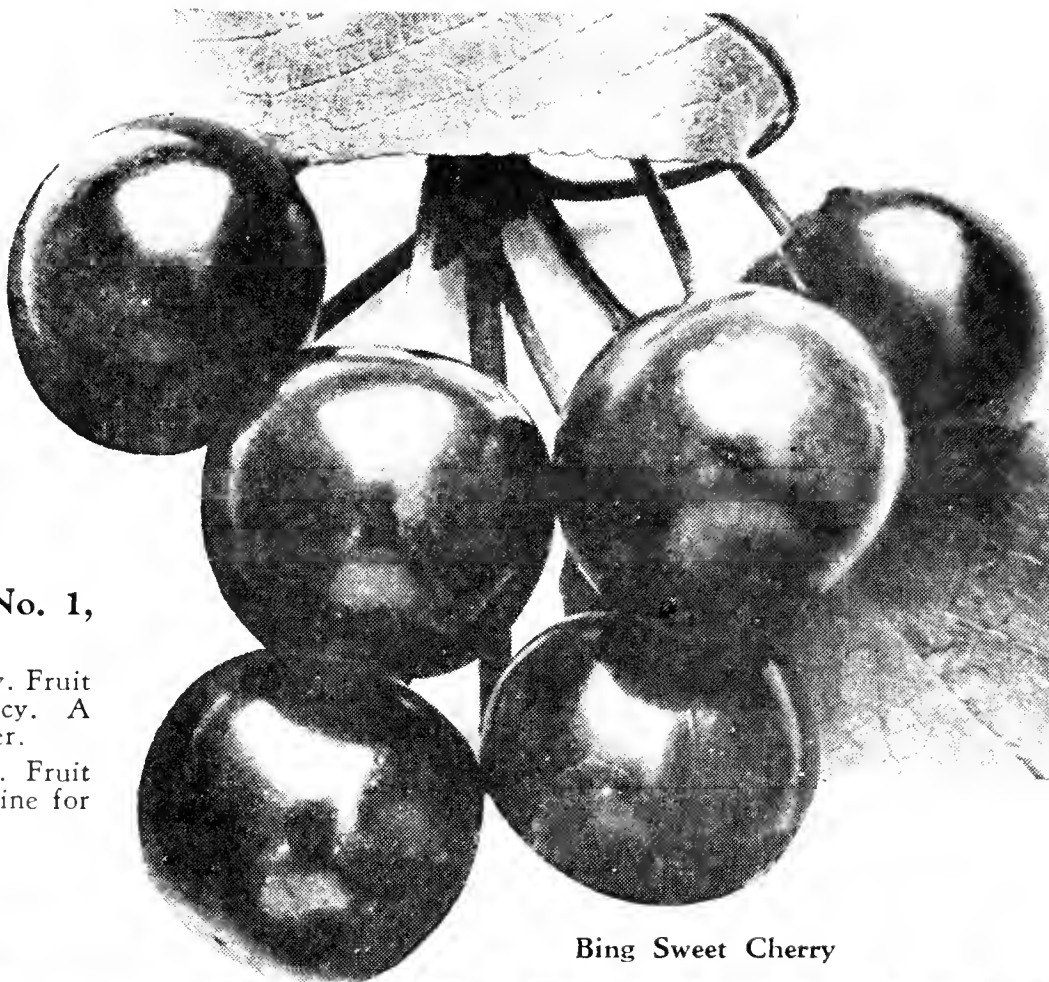

SCHMIDT. One of the best sweets, very attractive and keeps well. Color deep crimson-red; extra large, tender, sweet, and juicy.

SOUR CHERRIES

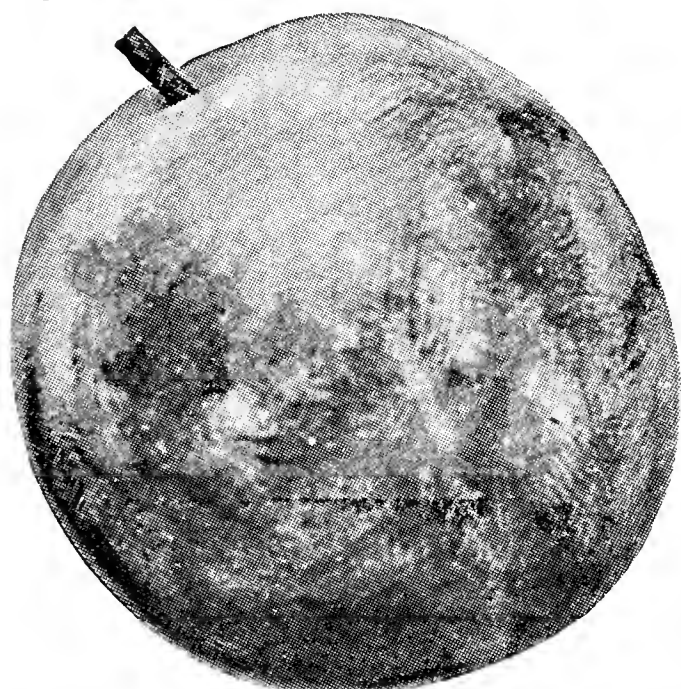

Prices: 9/16 inch and up, 4-6 ft., No. 1, 50c each; 3 for \$1.45.

LARGE MONTMORENCY. Best late Cherry. Fruit EXTRA large, bright shiny red; firm, juicy. A great market Cherry. Tree a strong grower.

EARLY RICHMOND. Early. Very popular. Fruit medium bright red; juicy. Bears heavily. Fine for pies.

Bing Sweet Cherry

Burbank Plum

Large Montmorency

ROSES

Frau Karl Druschki. (Hybrid Perpetual). Very large, perfect form, snow-white; a vigorous grower and free bloomer. 2-year, No. 1, field-grown, 35c each; 3 for \$1.00.

General Jacqueminot. (Hybrid Perpetual). Many velvety petals of dark red; richly fragrant. Blooms freely. No. 1, field-grown, 35c each; 3 for \$1.00.

Pink Radiance. (Hybrid Tea). Extra hardy, vigorous, and prolific; one of the best all-around garden Roses. Its color is a beautiful blending of carmine-rose shaded with opal and copper. 2-year, No. 1, field-grown, 45c each; 3 for \$1.30.

Pink Radiance

Climbing Roses

Climbing American Beauty. The famous American Beauty Rose in climbing form. It has all the characteristics of its relative including form and fragrance. Healthy foliage and strong climbing habit of growth. 2-year, No. 1, field-grown, 40c each; 3 for \$1.15.

Pink and Red Baby Rambler. Dwarf form of the popular climbing Rambler; very hardy, vigorous, and a perpetual bloomer. Flowers are large and borne in clusters. 2-year, No. 1, field-grown, 40c each; 3 for \$1.15.

Climbing American Beauty

GLADIOLUS BULBS

Best early and late varieties. Our favorite colors mixed. All big, long spikes, and large flowers. Blooms first year. 25 bulbs, 50c; 50 bulbs for 75c; 100 bulbs for \$1.25.

PERSIAN LILAC (Purple). A real improvement over the common Lilac. The foliage is small, and flowers bright purple. Blooms in May and June. Strong, 2-year-old, 18-24 inch bushes, 25c each; 6 for \$1.35.

SNOWHILL HYDRANGEA. Large, flat clusters of white bloom from June to September. The most hardy of Hydrangeas, and especially useful for shady places. Very popular shrub. 2-3 ft., 30c each; 6 for \$1.50.

HYDRANGEA P. G. This lovely, showy shrub produces in abundance, during August and September, immense clusters of white flowers, which gradually change to pink. Hardy, easy to grow, and blooms the first season planted. 12-18 in., 30c each; 6 for \$1.50.

Japanese Barberry

SPIREA ANTHONY WATERER. Foliage is very handsome, being variegated with creamy white or yellow. If the flowers are removed as they fade, the plant will continue blooming until freezing weather. 2-3 ft., 35c each; 3 for \$1.00.

SPIREA VAN HOUTTEI. One of the finest of the Spireas, having a most graceful appearance even when out of bloom. The flowers are pure white and borne in dense clusters along the whole length of the branches. 18-24 in., 30c each; 4 for \$1.00.

Spirea Van Houttei

Ornamental Shrubs

PINK WEIGELA. A tall growing vigorous sort with deep pink flowers, trumpet shaped, that are borne thickly along the stems in great abundance during June and more sparingly at intervals throughout the summer. Strong, 2-year, 18 to 24 inch bushes, 20c each; 6 for \$1.10.

FLOWERING ALMOND. (Pink). Early spring-flowering shrub, usually in full bloom before leaves appear. Growth dwarf and bushy, compact, with slender branches. Fine plants to use in grouping for the lawn. Flowers are very showy, and produce in great abundance. 12-18 inches, 35c each; 6 for \$2.00.

FORSYTHIA FORTUNEI. An erect growing type with slender, upright branches. Fortunei grows the tallest and most slender of the Forsythias, and is especially desirable for tall background. Has lovely, golden yellow flowers very early in the spring. Strong, 2-year, 18-24 in. shrubs, 25c each; 6 for \$1.40.

DEUTZIA, Pride of Rochester. Produces large, white flowers, tinged with rose. Vigorous grower, profuse bloomer. One of the earliest to blossom. Grows 6 to 8 ft. tall, and is useful for specimens or for background planting. Very hardy, and adapts itself to any soil. 12-18 inch shrubs, 20c each; 6 for \$1.10.

DEUTZIA, Lemoine. Medium large flowers of pure white, borne in cone-shape head. Attains about 4 feet in height, and is especially useful in partial shade. One of the most popular of Deutzias. 12-18 inch bushes, 25c each; 6 for \$1.25.

RED BARBERRY. Makes a beautiful specimen bush. Foliage purple to bright red. Produces a brilliant appearance in any landscape. 12-15 inch bushes, 20c each; 6 for \$1.10.

JAPANESE BARBERRY. There is no shrub so generally planted or more practical for all purposes where foliage effects are desired. It is a dwarf growing uniform bush, rounded in form, with numerous leaves covering thorny twigs. As a filler, edging for other shrubbery, foundation screen in front of porches, or as a hardy low hedge it is unsurpassed. 2-3 ft., 20c each; 6 for \$1.00.

Hedge Plants

AMOR RIVER PRIVET. One of the best hedge plants because of its extreme hardiness. It is of smaller form and habit than the well known California type, but much hardier. Grows quickly, making a hedge the first year and succeeds in practically all soils. When planting, cut back to four inches above the ground to make the hedge bushy at the bottom. 12-18 in., 15 for \$1.00; 25 for \$1.50.

Evergreens

For Windbreaks, Hedges
and Specimen Plantings

KOSTER BLUE SPRUCE. A tree of unusual beauty with foliage of the deepest steel-blue. It retains its true blue color longer than any other variety. 4-year graft., \$1.50 each.

COLORADO BLUE SPRUCE. A perfectly shaped tree with an abundance of heavy foliage of a rich glistening blue tinge, flashing and sparkling in the sunlight. It is the showiest and most impressive of Evergreens, and is surpassed in color only by the grafted Koster Blue Spruce. A truly marvelous tree that should not be omitted from any planting. 12-18 in., (Balled and Burlapped), \$2.00 (not B&B), \$1.50; 18-24 in., (B&B), \$3.00.

NORWAY SPRUCE. The most common Spruce. A large, bright green, fine looking tree. The most popular tree for windbreaks and extensively used for Christmas trees, hedges, and landscape purposes. 6-12 inches, 2 for 25c; 6 for 70c. 12-18 inches, (B&B), 60c each; 3 for \$1.75. 18-24 inches, (B&B), 75c each; 3 for \$2.00. 2-3 ft., (B&B) \$1.25 each; 3 for \$3.25.

IRISH JUNIPER. Foliage is bluish green. Very compact, upright habit, making a splendid column eventually. 12-18 in., 35c each; 3 for \$1.00. 18-24 in., 50c each.

Colorado Blue Spruce

VIRGINIA JUNIPER. Tall growing, one of the best known of the Junipers. Stands pruning well, excellent for hedges or for lawn specimens. Hardy, of rapid growth, usually conical in habit and very dense; foliage a good dark green, turning to bronze in winter. Has bright blue berries that are a great attraction to birds. 6-8 in., 15c each; 7 for \$1.00.

American Arbor-Vitae

AMERICAN ARBOR-VITAE. Rather dwarf habit of growing. Its foliage or leaves are flat instead of needle-like, and set on edge; color bright green. Used as a specimen for the lawn and in tubs for porches; also extensively planted for hedges and screens to break the force of winter winds. 12-18 inches, 2 for 35c; 6 for \$1.00.

SIBERIAN ARBOR-VITAE. The hardiest of the American Arbor-vitae, although of somewhat slow growth; of dense and symmetrical form, with a rich, dark green foliage. Named Siberian because of its rugged construction. 10-15 inch, 2 for 35c; 6 for \$1.00.

HOVEY ARBOR-VITAE. A low growing egg-shape form with a golden green foliage. 10-12 inches, 25c each; 6 for \$1.35.

MUGHO PINE. Beyond doubt the best all-around low growing Evergreen. It has a rich, green foliage, and is especially adapted for rock gardens, foundation plantings, or lawn decorations. May be kept as low and compact as desired by shearing. 5-year trees, 4-6 inches tall, 2 for 35c; 6 for \$1.00.

Quality Flower Seeds

DAHLIA FLOWERING ZINNIAS. Splendid new Giant Everblooming Zinnia. Mammoth flowers from 4 to 6 inches across. Wonderful range of colors. The wonder flower of the garden. Our packets are extra large, three times larger than other seed houses give. Pkt., 10c; 2 for 15c.

EVERBLOOMING SWEET WILLIAM. Wonderful new strain. Four colors on one plant. Each individual flower of a different color. From white through the shades of pink to the deepest blood-red. Pkt., 10c; 2 for 15c.

Zinnia

MIXED MARIGOLD. Blooms giant yellow and rich orange, double ball-shaped flowers. Produces flowers from July until frost. Easily grown for cut flowers. Pkt., 10c; 2 for 15c.

CALIFORNIA GIANT ASTER. This new variety is the largest and most beautiful of all the Asters. Produces wonderful fluffy, showy flowers from early autumn until heavy frost. Pkt., 10c; 2 for 15c.

DWARF GIANT COCKSCOMB. A wonderful showy flower, with mammoth heads. Excellent for pot plants, and are very showy in the flower bed. Pkt., 10c; 2 for 15c.

Vegetable Garden Seeds

BEANS

Green Podded Varieties

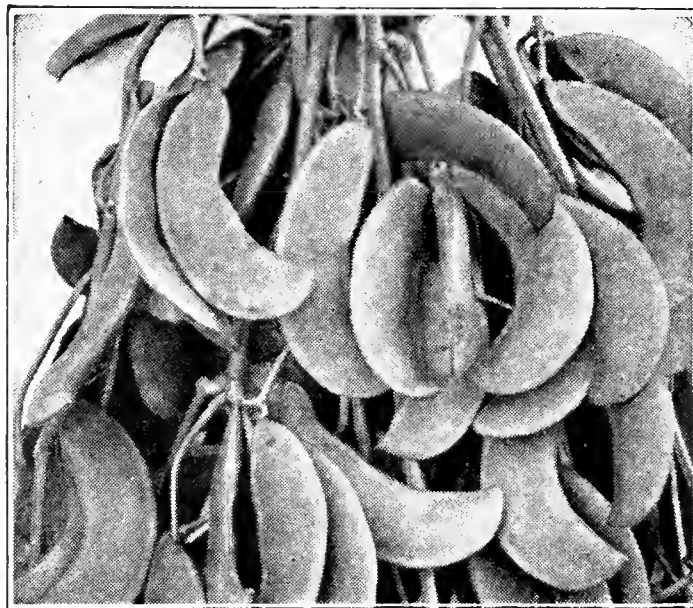

Dwarf Pencil Pod Black Wax Beans

DWARF PENCIL POD BLACK WAX. Very desirable for home and market garden and for truckers. Very productive for a long period. Pods are handsome bright yellow, measuring from 5 to 6 inches. Very fleshy, strictly stringless, brittle, fine grained and tender; quality unexcelled. Pkt., 10c; ½ lb., 20c; 1 lb., 30c; 5 lbs., \$1.25.

GIANT STRINGLESS GREEN POD. One of the very best for the home garden. Very desirable for canning. Plants large, hardy, heavily productive. Pods medium green, long, round, very fleshy, brittle and stringless. Pkt., 10c; ½ lb., 20c; 1 lb., 30c; 5 lbs., \$1.25.

BOUNTIFUL. Earliest green pod Bean and a continuous bearer. Superior quality, very hardy and practically rust and mildew proof. It bears continuously for several weeks, being the first to give pods fit to pick in the spring and the last to yield eatable pods in the fall. The large green pods are thick, broad, flat, extra long, very uniform in shape, solid, meaty and of a high quality, tender, of delicious flavor and absolutely stringless. Pkt., 10c; ½ lb., 25c; 1 lb., 40c; 5 lbs., \$1.50.

Baby Lima Bean

Lima Beans

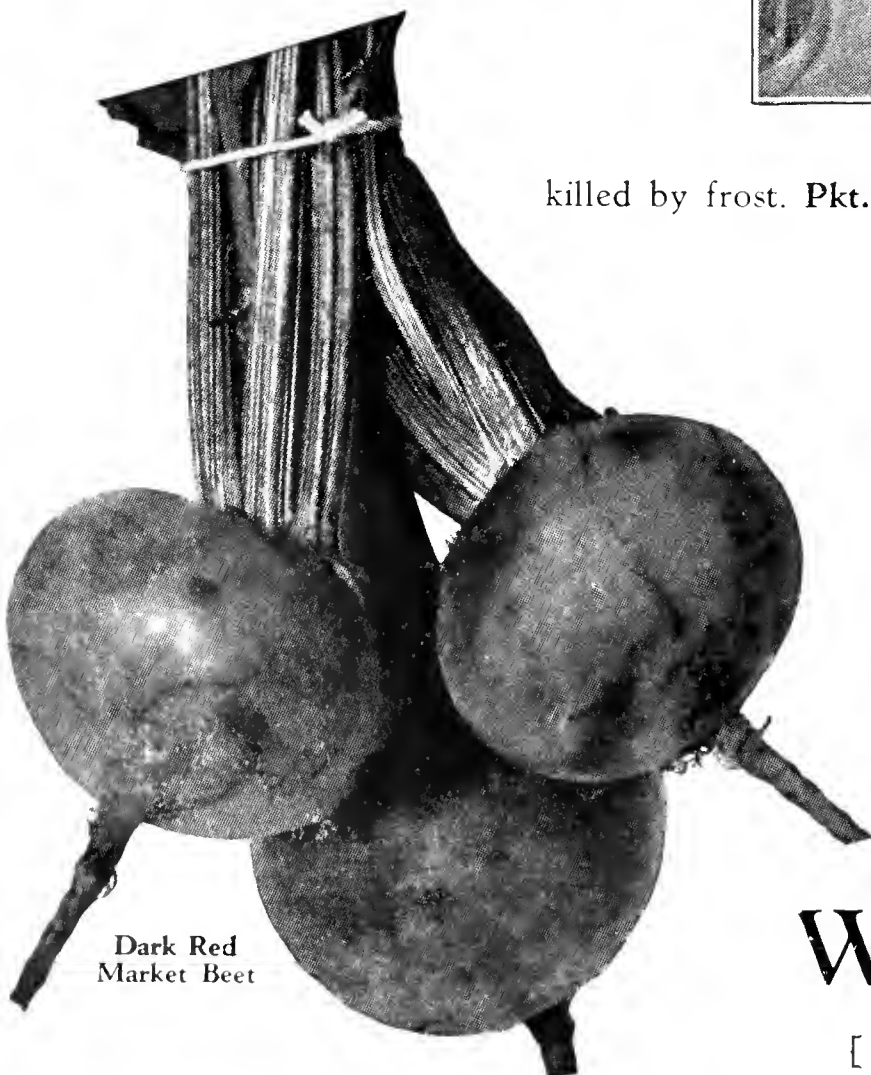

BABY LIMA

One of the earliest Limas in cultivation. Vines grow rapidly and bear pods in large clusters. Beans are true butter Lima flavor and very sweet. Bears tremendously until

killed by frost. Pkt., 10c; ½ lb., 20c; 1 lb., 30c; 4 lbs., \$1.00.

Beets

DARK RED MARKET BEET. Globe-shaped with a small tap root. The finest shaped Beet grown and the largest Beet grown. Heavy cropper. Delicious, tender and fine grained. Flesh blood red, solid and sweet. Pkt., 10c; 1 oz., 15c; 3 ozs., 35c.

Cabbage

EARLY JERSEY WAKEFIELD. The heads are uniformly hard and solid. The most popular early Cabbage. Heads conical or pointed and of the very best quality. Pkt., 10c; ½ oz., 15c; oz., 25c.

DANISH BALLHEAD. Best winter Cabbage and the most hardy. Heads round and deep; very solid. Best shipping Cabbage in cultivation. Pkt., 10c; ½ oz., 15c; 1 oz., 25c.

Corn

STOWELL'S EVERGREEN SWEET CORN. Late maturing sort, producing strong and vigorous stalk. Kernels very sweet and tender, white and remain in table condition a long time. Pkt., 10c; ½ lb., 20c; 1 lb., 30c; 5 lbs., \$1.25.

GOLDEN DELICIOUS SUGAR CORN. World's smallest cob with the longest ears. Has Bantam original flavor, but ears twice as long and smaller cob. Pkt., 10c; ½ lb., 20c; 1 lb., 30c; 5 lbs., \$1.25; 10 lbs., \$2.35.

Carrot

EARLY CHANTENAY. It is about 6 inches long, thick through, and decidedly stump-rooted. Flesh deep orange-red, fine grained and of excellent flavor. Pkt., 10c; 1 oz., 15c; 4 ozs., 35c.

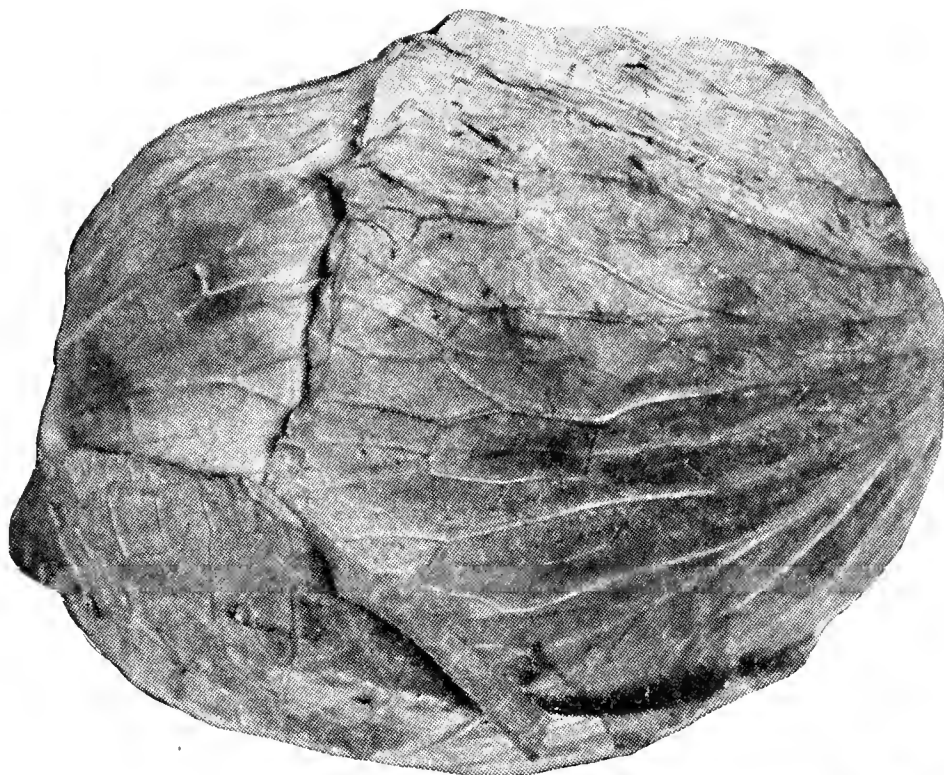

Cucumber

IMPROVED LONG GREEN. 12 to 16 inches in length; excellent quality. Young fruit used for pickling; larger ones are excellent for slicing. This variety is the most popular one for making sweet pickles from the ripe fruit. Pkt., 10c; 3 pkts., 25c.

Lettuce

EARLY CURLED LEAF. Leaves are exceptionally tender, crisp and sweet, curled, bright green, tinged with brownish red at the edges. Very early; grows rapidly; ready in 45 days. Pkt., 10c; 1 oz., 20c; ¼ lb., 35c.

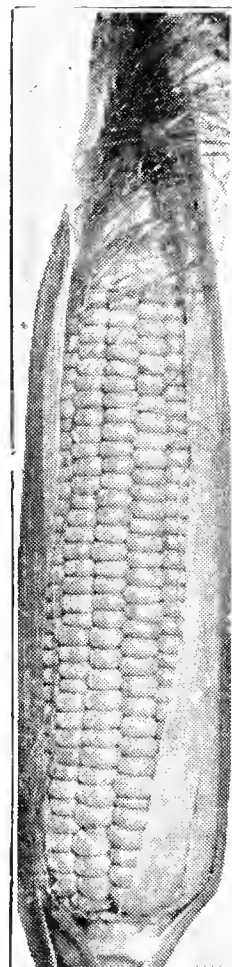

CABBAGE HEAD. Recommended by market gardeners as the very best solid heading variety for spring and summer months. It will not scald or burn and will make solid heads where all other sorts fail. Very crisp and tender, produces immense heads 8 to 10 inches across. Pkt., 10c; oz., 25c; ¼ lb., 65c.

Selected Melons

Giant Hearts of Gold Muskmelon

GIANT HEARTS OF GOLD MUSKMELON. The new Muskmelon king. About five times larger than ordinary Hearts of Gold. Flesh deep golden orange, extremely thick and very sweet flavor right down to the rind. Pkt., 10c; oz., 25c; $\frac{1}{4}$ lb., 75c; 1 lb., \$2.00.

OSAGE, SELECTED STRAIN MUSKMELON. One of the most popular main crop varieties. Fruit medium size, salmon flesh, thick, fine grain and highly flavored. A good shipper. This melon is always in good demand. Pkt., 10c; oz., 25c; $\frac{1}{4}$ lb., 70c; 1 lb., \$1.95.

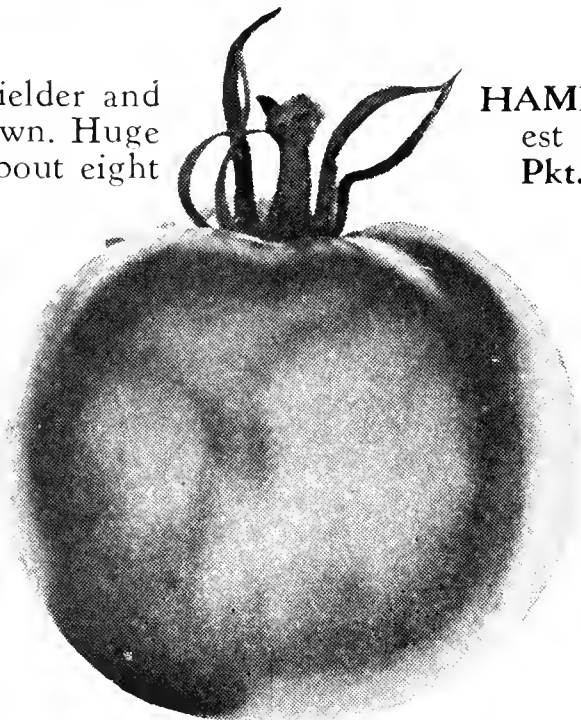

Radish

ROYAL GEM WHITE TIP. Flesh is sound and crisp as ice, sweet, juicy and tender. One of the earliest, perfectly round, rapid grower, brilliant red at the top blending to a pure white bottom. Pkt., 10c; oz., 15c; 4 ozs., 35c.

Peas

GIANT PODDED. A heavy yielder and one of the finest Peas ever grown. Huge 5- to 6-inch pods filled with about eight peas. Tender and sugar sweet. Can be planted for either early or late. Pkt., 10c; $\frac{1}{2}$ lb., 20c; 1 lb., 30c; 5 lbs., \$1.35.

EARLY ALASKA. An extra early Pea; round-seeded, vines uniform in growth. We recommend this variety very highly for market gardeners. Very hardy. Ready to use in 50 days. Our strain is unexcelled. Pkt., 10c; $\frac{1}{2}$ lb., 20c; 1 lb., 30c; 5 lbs., \$1.35.

John Baer Tomatoes

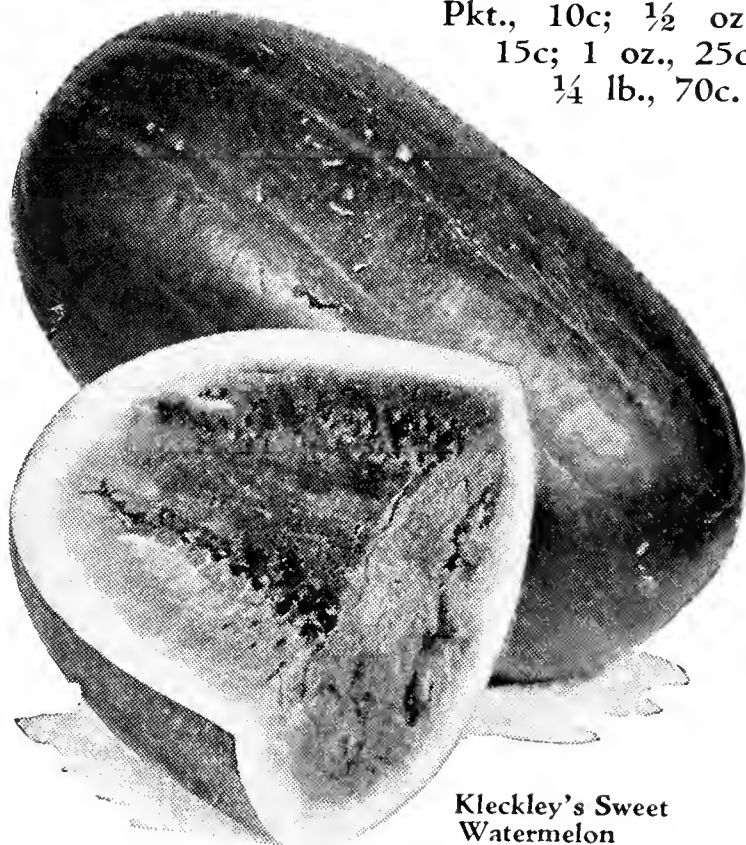

Tomatoes

JOHN BAER. Very popular early variety. Fruits nearly round and uniform in shape; smooth and without core. Excellent shipper and the most productive Tomato grown. Pkt., 10c; $\frac{1}{2}$ oz., 25c; oz., 40c; $\frac{1}{4}$ lb., \$1.25.

Watermelon

KLECKLEY'S SWEET. This is the most popular variety of Watermelon for home garden and nearby markets. It has an excellent flavor and is not excelled in its crispness. No melon is sweeter than Kleckley's Sweet. Average length 18 to 20 inches. Color very dark green, season medium early. Pkt., 10c; oz., 15c; $\frac{1}{4}$ lb., 35c; $\frac{1}{2}$ lb., 50c; 1 lb., 95c.

TOM WATSON. This variety has occupied a very prominent place in all markets, and is in demand everywhere. The flesh is superb in quality and the brightest red in color. The handsome dark green rind is thin, but hard and tough, which makes an excellent shipping melon. A good yielder and a great money-maker. Pkt., 10c; oz., 15c; $\frac{1}{4}$ lb., 35c; $\frac{1}{2}$ lb., 50c; 1 lb., 95c.

Kleckley's Sweet Watermelon

Parsley

HAMBURG TURNIP-ROOTED. Finest and the most handsome variety. Pkt., 10c; 3 for 25c.

Pepper

CHINESE GIANT. Largest Pepper grown; wonderful appearance, thick flesh, best flavored Pepper and is very mild. 4 to 5 inches broad and of equal length. Plants are well-branched and bear an enormous amount of fruit. Pkt., 10c; $\frac{1}{2}$ oz., 25c.

Onion

GIANT PRIZETAKER. It is by far the largest, finest flavored yellow Onion in cultivation. Flesh is pure white and equals the Spanish Onion in flavor. Skin is bright clear straw color. Can be grown from seed with perfect success. Pkt., 10c; $\frac{1}{2}$ oz., 15c; 1 oz., 25c; $\frac{1}{4}$ lb., 70c.
